ACHI, American Communities Helping Israel, was founded to boost the economy and morale in Israel. Through creative "no-cashier" ideas ACHI reaches children in Israel for a variety of projects including: "Think Israel - Buy Israeli" and "Think Israel - Buy Israeli" (a program that encourages children to buy Israeli products). ACHI also provides a variety of community, cultural, and educational programs and services to children in Israel. Each donation makes ACHI to fund the needed project. Each card is a meal ticket for a hungry child in Israel.

In addition, ACHI's "Nourish a Child - Nourish a Mind" program focuses on providing nutritious meals for children at schools in economically deprived areas. Each donation makes ACHI to fund the needed project. Each card is a meal ticket for a hungry child in Israel.
